Familien skal i skoven en sommerdag i 1958, hvis de altså kan finde ud af at komme af sted. Der er nemlig så meget, de ikke kan finde ud af.

For eksempel kan de voksne ikke finde ud af at tage vare på deres børn, og børnene er lidt for små til at tage sig af forældrene, selv om de forsøger. Moderen vil hele tiden tage sit eget liv, faderen vil gerne til Asien for at redde den tredje verden, men ingen kan finde ud af at redde sig selv. Familien som institution er et paradoks: en koncentrationslejr, hvor alle lever i identitetsløs frihed.
